Mission Waco C-19+ and Exposure Protocol: FOR VOLUNTEERS

IMMEDIATELY CONTACT: the Program Director where you volunteer AND volunteers@missionwaco.org

NEXT STEP: Submit completed “INITIAL INFO” form to volunteers@missionwaco.org.

**Case 1**
Volunteer has close contact with C-19 infected individual

- **Is volunteer symptomatic?**
  - Yes: Volunteer displays symptoms concerning C-19 Infection
  - No: Patient diagnosed with C-19 clinically “COVID like illness” (CLI)

**14 Day self-quarantine:**
Ends 14 days after close contact exposure unless otherwise specified by DSHS.

- If Volunteer develops symptoms during 14 day quarantine proceed to Case 2 above.
- Even if you test negative, you must complete the 14-day self-quarantine.

**Case 2**
Volunteer displays symptoms concerning C-19 Infection

- Calls/visits medical provider and informs program director immediately

**Case 3**
Volunteer has close contact with individual awaiting test results (eg household member):

- Volunteer begins self-quarantine until results come in. If household member tests positive, continue self-quarantine for 14 days. If household member tests negative, volunteer can return to normal shifts.

Volunteer diagnosis thought to be unlikely, volunteer not tested

**Isolation and C-19 management with PCP (primary care physician)**

- If C-19 diagnosed or CLI then proceed
- Can return* with “Self-Certification” Form AND Vol. Director approval

**Symptoms as of 8/13/2020**
- Fever (>100.4) or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

---

**Close contact is defined as:**
1. Being 6 feet or less from someone for greater than 15 min OR
2. Being directly coughed or sneezed on by that person
