

MISSION WACO | WORLD

We strive to eliminate poverty in our own backyard and around the world through hands-on compassion and a holistic approach.

Empower

the poor and marginalized through Christian-based holistic, relationship-centered programs.

Equip

and mobilize the middle-class to become more compassionately involved among the poor.

Engage

the systemic issues of social injustice which oppress the poor and marginalized.

A message from our Executive Director

As we enter the second quarter, April marks a powerful milestone for us at Mission Waco—neighbors are moving into homes, stepping into stability, dignity, and renewed hope at Creekside Community Village. These moments are what your generosity makes possible, but there is still more work ahead. We invite you to deepen your impact by joining our Neighbor Network as a monthly donor, providing the steady support needed to continue welcoming our neighbors home and walking alongside them in the months to come.

—John Calaway
